PERSONAL STATEMENT

I'm a 27 year old Masters Graduate from Leeds Beckett University, currently living in Manchester. I consider myself a well-organised and reliable person who is hardworking and computer literate, with a flexible and proactive attitude towards work.

My university focus was on all aspects of web design and development including web application design patterns and modules covering all aspects of databases.

Since graduating university I have worked as a Front-end Web Developer and UX Designer expanding my knowledge of the industry and expanding my skills. Working in agile teams and fast-paced environments. Using tech stacks ranging from JSP to React JS, using automation testing tools such as Cypress, creating CI/CD Pipelines, npm packages and deploying applications on AWS.

RELEVANT SKILLS
