About

With over 11 years of experience, I am a seasoned Lead Frontend Developer who combines deep technical expertise with proven leadership abilities. I have successfully led frontend development teams and delivered high-impact projects for retail brands and enterprise software companies. Building on my strong foundation in Computer Science, I specialise in modern frontend architectures, UI/UX best practices, and Agile methodologies. I excel at mentoring developers and managing high-performing teams.

Education

2012 - 2016	Leeds Beckett University
2016 - 2017	
	BSc Hons Computer Science
	MSc Information & Technology

Experience

Thrive Learning Limited

Lead Frontend Developer | March 2022 - **Present**

Currently leading a Scrum team in developing and delivering new features for a bespoke learning platform. Responsible for technical direction and line management of frontend developers, ensuring code quality, mentoring team members, and driving continuous improvement in development practices. Successfully balancing hands-on development with team leadership to maintain high delivery standards and team growth.
Tech: React / Typescript / Redux / GraphQL / SASS / Storybook / Cypress / Jest / React Testing Library / AWS / Jira / React Native.

Cheshire Data systems Limited

Senior Web Developer | December 2019 - February 2022

Part of a multi-disciplined Kanban Squad. Working on projects to improve our customers user journeys for car, home and pet insurance.
Tech: React / JavaScript / SASS / Docker / JSP / Jenkins / Cypress / Maven / Gulp / XML / JSON / Jira / AWS / React Native.

Boohoo Limited

UX Executive | June 2019 - December 2019

I worked in a self sufficient UX team focusing on maximising the boohoo brand. Creating UI designs, high and low level designs and creating A/B tests.
Tech: AdobeXD / Figma / Photoshop / JavaScript / AB Testing.

Cheshire Data systems Limited

Frontend Web Developer | October 2018 - June 2019

Worked in a scrum team delivering web products for new and existing clients. This multi-disciplined digital delivery squad created tech in the insurance sector.
Tech: React / JavaScript / SASS / Docker / JSP / Jenkins / Cypress / Maven / Gulp / XML / JSON / Jira.

Relative Connections Limited

Junior Web Developer | October 2017 - October 2018

AETC Limited

Junior Web Developer | June 2014 - August 2015
