About

Over the last year 7 years I have built on my solid academic background in Computer Science with exposure to Frontend Development, UX Design as well as Agile ways of working for start-ups, leading retail brands and large software houses.

Education

2012 - 2016	Leeds Beckett University
2016 - 2017	**BSc Hons Computer Science**
	MSc Information & Technology

Experience

Thrive Learning Limited

Senior Frontend Developer | March 2022 - **Present**

Working in a Scrum team as a tech lead to deliver new features for our bespoke learning platform.
Tech: React / Typescript / Redux / GraphQL / SASS / Storybook / Cypress / Jest / React Testing Library / AWS / Jira / React Native.

Cheshire Data systems Limited

Senior Web Developer | December 2019 - February 2022

Part of a multi-disciplined Kanban Squad. Working on projects to improve our customers user journeys for car, home and pet insurance.
Tech: React / JavaScript / SASS / Docker / JSP / Jenkins / Cypress / Maven / Gulp / XML / JSON / Jira / AWS / React Native.

Boohoo Limited

UX Executive | June 2019 - December 2019

I worked in a self sufficient UX team focusing on maximising the boohoo brand. Creating UI designs, high and low level designs and creating A/B tests.
Tech: AdobeXD / Figma / Photoshop / JavaScript / AB Testing.

Cheshire Data systems Limited

Frontend Web Developer | October 2018 - June 2019

Worked in a scrum team delivering web products for new and existing clients. This multi-disciplined digital delivery squad created tech in the insurance sector.
Tech: React / JavaScript / SASS / Docker / JSP / Jenkins / Cypress / Maven / Gulp / XML / JSON / Jira.

Relative Connections Limited

Junior Web Developer | October 2017 - October 2018

Building web applications for in house brands. Focusing on user retention and experience. Role involved creating new landing pages and re-branding sister brands.
Tech: HTML / CSS / JQuery / JavaScript / Wordpress / PHP / Bootstrap / Git.

AETC Limited

Junior Web Developer | June 2014 - August 2015

Placement year part of my university course. A great opportunity to work for a large scale engineering company in their IT team.
Tech: HTML / CSS / JQuery / JavaScript / Bootstrap / Git.
